1. Class will be automatically suspended and 5 year classification certificate expires (becomes invalid):
  - From the certificate expiry date in the event that the renewal survey has not been completed or is not under attendance for completion prior to resuming trading, by the due date. Under exceptional circumstances, CRS may grant an extension, not exceeding 3 months, to allow for completion of the renewal survey provided that the vessel is attended and attending surveyor do recommends. In the case that the certificate will expire when the vessel is expected to be at sea, provided there is documented agreement to such an extension prior to the expiry date of the certificate, and provided that positive arrangements have been made for attendance of the surveyor at the first port of call, and provided that CRS is satisfied that there is technical justification for such an extension. Such an extension is to be granted only until arrival at the first port of call after the expiry date of the certificate.
  - If any annual survey is not completed and the classification certificate is not validly endorsed within 3 months of the due date of the annual survey.
  - If the intermediate survey is not completed within 3 months of the due date of the third annual survey in each periodic survey cycle.
2. Continuous survey items:

Continuous survey item(s) due or overdue at time of annual survey is to be dealt with. The vessel's class will be subject to a suspension procedure if the item(s) is not dealt with, or postponed by agreement.
3. Recommendation and/or conditions of class:

The vessel's class will subject to a suspension procedure if the recommendation and/or condition of class is not dealt with, or postponed by agreement, by the due date.
4. Classification will be reinstated upon satisfactory completion of the surveys due. Such surveys shall be credited from the date originally due. However, the vessel is disclassified from the date of suspension until the date class is reinstated.
5. Suspension of class may jeopardise the validity of certain statutory certificates and ultimately result in automatic suspension of statutory certificates.
